Travelers Take Note

For training purposes and altitude sensitivity, note that the elevation on this tour can reach up to 8,000 feet (2,438 meters) above sea level.

The lodges and hotels on this tour are simpler and more rustic than typical DuVine accommodations, but were chosen for their location near national parks and access to excellent riding. Your guides will provide pre-walk briefings and directions.

To show you all our favorite parts of the Southwest, this tour includes longer transfers. We like to think of it as an opportunity to experience a greater breadth of scenery and cover as much ground as possible. In Zion National Park, the official park shuttle service must be used in order to access the Narrows hike. All shuttles are on a first-come, first-served basis and some wait time should be expected. The Narrows hike requires wading through running water. We highly recommend participating, but you may first wish to review [NPS information](#) about what to expect.

A very limited number of e-bikes are available on this tour. Requests will be accommodated on a first-come, first-served basis.

For the hikes on this tour, we strongly recommend bringing hiking boots or trail shoes with good traction (not running shoes or sneakers). Moisture-wicking clothing or daypacks are also recommended, but not required.

Your guides will meet you in St. George and transfer you to our first hotel for a warm welcome to the Southwest. Afterwards, get in some extra riding with a challenging climb to Rainbow Point or hike along the Rim Trail to Inspiration Point. Tonight, we'll dine together beneath the Southwest stars with Daniel, who joins us from the Kaibab Band of the Paiute tribe to share indigenous stories and wisdom, before we bed down at our elevated safari-style camp.

Early Jurassic Rocks and Relics

This morning we'll explore the hoodoos of Bryce Canyon as they were meant to be experienced: on foot. The classic Queens Garden and Navajo loop leads us into the valley to get up close and personal with these staggering rock spires. After our hike, shuttle just over an hour across the plains toward Zion where one of the best restaurants in the region will serve us a lunch of local bison burgers. Later, it's back to the bike for an epic ride that winds into Zion's Checkerboard Mesa. We'll pedal through Navajo Sandstone, a stunning formation built by nature over millions of years. When we hit the Zion-Mount Carmel tunnel, we'll pack up the bikes and shuttle straight to our hotel, just outside the park entrance. Your guides can offer excellent suggestions for this evening's dinner on your own in town.

Into Zion Valley

After breakfast, spend the morning exploring Zion National Park on foot. Your guides will review the day's options: you may wish to hike the Narrows slot canyon and wade up the Virgin River where waters are sometimes waist-high, or take a less technical trail that rises above Zion Valley. Whatever you choose, we'll reconvene for lunch in Springdale. After, rest your legs at the hotel, go for another hike, or cycle the Floor of the Valley Road: a virtually car-free artery that runs through the parks' majestic cliffs with 360-degree views of the valley's stunning breadth. This evening we meet at our favorite Springdale haunt and relive the day over dinner.

Meals: Breakfast / Lunch / Dinner

Destinations: Zion National Park, Floor of the Valley Road

Accomplished: 18 miles / 29 km, elevation gain: 820 feet / 250 meters; hiking

Longer Option: 23 miles / 63 km, elevation gain: 2,027 feet / 618 meters

Final Morning in Zion

On our final morning, we'll head out of Springdale and ride south towards Grafton. This pioneer ghost town was established right outside Zion National Park in the mid-1800s, and it vividly illustrates what life was like for early settlers in the American West. Loop back to Springdale in time for a farewell brunch, then transfer back to St. George for your travels home.
